- A list containing pairs of pop culture events or releases that occurred in the same year

WHAT YOU'LL NEED

HOW-TO

PREP

- Gather multiple popular events/songs/movies that happened in different years (or use the examples provided).
- Determine if you will play on teams or as individuals.

PLAY

In this game, teams (or individuals) will be read a sentence containing two pop culture references. Players will decide which year those events occurred. Once they hear the sentence, they have to decide what year in which those things happened. The team or individual to answer fastest gets a point. For every wrong guess, they lose a point. The team or player with the most points wins!
